Travel through THROUGH THE EYES OF SOME OF THE

Canada's National Parks

**Thursday, September 25, 2008
at Wheaton North High School**

Presented by: Dale Johnson

Canada's National Parks are a gateway to a wilderness experience for millions of people, where the tingling arousal of danger can still be felt. Wild creatures unify the land; without them it would only be dead scenery.

This adventure film takes us through 21 Canadian Parks from east to west. Starting with L'Anse aux Meadows Park in Newfoundland, where Vikings waded ashore a thousand years ago. We then explore the forested Parks of central Canada and the stunning mountains of the West.

Today people come from crowded cities to get back to the roots of our collective memories. The commonplace is left behind in this land that too few see. In this program we explore the natural heart...the true spirit...of Canada's National Parks!

DALE JOHNSON began making films while living with the Choco Indians in Panama before college. Attending the University of Texas, he filmed hundreds of commercials and documentaries. Later, he produced public relations and

documentary films for NASA. Dale and his wife, Sandy Mortimer (a regular presenter here in Wheaton) reside in Shelbyville, KY.

Etched in Stone: Scotland to Provence

at Wheaton North High School**

Presented by: Monty Brown

Sponsored by:  **WHEATON BANK
& TRUST COMPANY™**

From Sea (Irish) to Shining Sea (Mediterranean): An historic spiritual journey from Solway Firth on the Irish Sea in Scotland, to the North Sea coast of England, south through the Midlands, the West Country, and across the Channel to France. From Normandy and Brittany in the north through the redolent French countryside to romantic Provence on the Mediterranean Sea. Everywhere, stories and legends of the glorious past are written in stone: churches, castles, monuments, monoliths and remnants.

This program is made up of five (short) parts: Part 1: Scotland & Northumberland; Part 2: Yorkshire & The Heartland; Part 3: The West Country; Part 4: Northern France; and Part 5: Provence: Charleval and La Roque d'Anthéron.

MONTY BROWN was born in Dorchester, England. He worked as an actor and songwriter, then for the BBC as a production assistant. With a promising music career, he moved to New York, writing the songs "Would You Fly?"

and "Cajun Christmas," both used in the movie *Steel Magnolias*. Monty and his wife, Marsha, currently live in Louisiana.

Senior Living*

Our journey begins in the capital city of Tel Aviv, visiting the tourist mecca of Dizengoff Street with its outdoor eating places, and Joppa, one of the world's oldest seaports. Climb Mt. Gerizim, the holy mountain said to be the site of Abraham's near sacrifice of Isaac. We travel down the Jordan to the Sea of Galilee with its Christian sites and Roman era cities: Capernaum where Jesus preached, Church of the Beatitudes, site of the Sermon on the Mount, Tabga and the Church of the Multiplication with its mosaic floor depicting the miracle of fishes and loaves, and Tiberius, founded by Herod Antipas. West of the Sea of Galilee lies Nazareth where Jesus grew to manhood.

Join us as we visit many places we read about in the Bible, making it real and alive.

SANDY MORTIMER We welcome back one of our favorite presenters to Wheaton! Sandy has traveled the world, developing a lifelong interest in diverse and unique cultures. She is recognized as one of the top speakers in the travelogue industry.

Sandy and husband Dale Johnson make their home in Shelbyville, KY.

St. Vincent and the Grenadines: Caribbean Jewels

**Thursday, April 2, 2009
at Wheaton North High School**

Presented by: Steve Gonser

*Sponsored by: Visiting Angels.
LIVING ASSISTANCE SERVICES*

St. Vincent and the Grenadines emerged from the sea eons ago as the result of the collision of the Caribbean and Atlantic plates. The resulting volcanism produced islands of unparalleled beauty. Since she emerged from the sea, St. Vincent has been blessed with lush mountains, rich volcanic soil and unspoiled landscapes of brilliant flora and beautiful, crystal clear waters. When you add the idyllic islands and deserted cays of the Grenadines, the entire country emerges as a prime vacation playground. There's something here for everyone from sailing and dolphin watching, to hiking nature trails and swimming at the base of waterfalls. You can climb to the top of a slumbering volcano or explore the fascinating underwater gardens surrounding this pristine group of islands.

STEVE GONSER has produced 14 travel adventure shows, which he has presented in over 700 cities. With his camera, Steve has a unique skill of translating the unusual and quiet surroundings in which people find themselves into film. We welcome Steve to Wheaton!

From the Mexican border just a few miles south of San Diego to the Canadian border north of Seattle, lies some of the worlds most impressive coastlines, forests, and mountains with rivers untamed and wild.

Visit the colorful sights of Vancouver with its Native American totem poles of ancient times. Seattle beckons as we tour this major metropolitan community and its space needle. Portland, Oregon and a winery tour of Napa Valley are included, as well as San Francisco with its Golden Gate Bridge, cable cars and Fisherman's Wharf. Bonus footage of the newly opened Ronald Reagan Library in Simi Valley is also a part of this film.

Laguna Beach and its Sawdust Festival, Irvine, California and its tech world, and the Capistrano Mission are major stops. Our trip ends in San Diego with highlights of Sea World's mighty killer whale show.

BOB DE LOSS has been giving film lectures since the age of 16. He has won numerous awards as a successful secondary school teacher. His films have been used in the production of feature films for European television, and he spent six years on the platform lecture circuit for the Audubon Society.
